WATER QUALITY CONTROL DIVISION STAKEHOLDER MEETING - 12/12/2013

AGENDA

Renewal of CDPS Pesticides General Permit:

COG860000

Thurs day, December 12, 2013: 10:00 am to 12:00 pm, Building C, Room C1E Colorado Department of Public Health and Environment

<u>Desired Outcome</u>: At this meeting, the Division would like to have final discussions regarding discharges to dry ditches and Compliance Certifications. There will also be time set aside to talk about other issues that are brought to the meeting from the regulated community. The Division intends to incorporate resolutions to issues raised in these meetings into the permit wherever possible as long as the resolutions conform to regulatory requirements. Stakeholders will have additional opportunity to comment on the draft permit when it goes to public notice in the spring of 2014.

10:00-10:15 – Introductions/sign in

10:15-11:00 – Review Dry Ditch discussion from 11/12/13 meeting
Review options
Low Risk option
Increased Thresholds option
Preferred option discussion

11:00-12:00 – Open Discussion, previous topics/new topics

Issues of concern were compiled by Division staff over the course of the past 12 months and those topics that were most frequently mentioned are the subjects of these meetings. This meeting is an open forum and expression of additional concerns/opinions is encouraged.

For those who are interested, minutes from the October 8 meeting and the November 12 meeting are posted at the following link to the Division's pesticide web page under "PGP Renewal Information":
